# High School

To whom it may concern,

I am pleased to be able to recommend Stoyan Charles Mitich and the services of the Ice House deejays to any schools or organizations who might be considering their services for dances or school lunch time performances.

Point Loma High School has had the Ice House deejays on campus on various occasions since the 1999-2000 school year. They have always been professional and courteous to students, teachers and administrators. The music they play is always appropriate, and helps to raise school spirit while entertaining the student body. The Ice House employees are always prompt, and ready to start their show when lunch begins and have held to our rules about end times for lunch performances. Students have given me much positive feedback regarding the Ice House lunch time shows, and I am glad that they have enjoyed this free and entertaining activity.

I strongly recommend the Ice House deejays, and I hope that other schools will use their services for lunch activities and dances. If you require any further information, please feel free to contact me at (619)223-3121 ext.185.

Sincerely,

Michele M. Fournier
